*Het productenpakket van Den Hartog Scientific - Elscolab group heeft de laatste jaren een grote verandering ondergaan. Met het nieuwe productenpakket kunnen wij ons nu verder specialiseren binnen bepaalde applicatiegebieden. Daarom hebben wij ook verschillende e-nieuwsbrieven in het leven geroepen zodat wij u nog gerichter en sneller kunnen informeren over de nieuwigheden en promoties. Wij hebben onze pakketten als volgt opgesplitst: "Life Sciences", "General Lab", "Storage" en "Liquid Handling". Mogelijks krijgt u binnenkort meerdere nieuwsbrieven. Met een simpele [klik](#) laat u ons weten waarin u geïnteresseerd bent. Om onze brieven zo spoedig mogelijk klaar te hebben, hebben wij er momenteel voor gekozen u de info door te geven zoals wij deze van onze leveranciers krijgen. Wij wensen u veel inf- en leesplezier en danken u voor uw tijd.*

## EasyTrack CryoTubes

2ml and 4ml, round bottom, EasyTrack CryoTubes are ideal for use in a wide variety of storage environments and applications including cryogenic storage of sample in vapour phase liquid nitrogen. Manufactured from high quality polypropylene, EasyTrack CryoTubes can be stored at temperatures as low as -190° C. Unique 2D-datamatrix code is permanently adhered to the base of each tube.

## Den Hartog Scientific introduces DESMON!

Introduction action valid till 30/06/2010.

Den Hartog Scientific always seeks to optimize its product range, quality, maintenance and services for our clients. Therefore we have chosen for an additional refrigeration and freezer line.

Why have we chosen for Desmon?

- Second largest producer of refrigeration and freezer equipment in Europe.
- Very wide range with very reasonable pricing.
- High quality products using innovative techniques:
  - *VOPOS controller*: last 16 alarms are viewable, USB port, etc.
  - *Monoblock*: entire cooling system is assembled on 1 plate. Within 15 minutes, the Monoblock can be replaced.
  - *Thermochemical cooling*: Cool boxes keep the desired temperature at least 6,5 hours because of this system.

Product range:

- Laboratory refrigerators (blood bank, vaccin, pharmacie)
- Laboratory freezers (-25°C, -45°C, -86°C)
- Walk-in cold-rooms
- Isothermal cool containers

- Ice makers
